## **STARTING UP**

1. Set up your Sega Saturn system as described in its instruction manual. Plug in Control Pad 1.
2. Place the Olympic Soccer disc, label side up, in the well of the CD tray and close the lid.
3. Turn on the TV or monitor and the Sega Saturn™. The Sega Saturn™ logo appears on screen. (If nothing happens, turn the system off and make sure it is set up correctly before turning it on again.)
4. If you wish to stop the game in progress or the game ends, press the Reset Button on the Sega Saturn console to display the on-screen Control Panel.

**Important:** Your Sega Saturn™ CD contains a security code that allows the disc to be read. Be sure to keep the disc clean and handle it carefully. If your Sega Saturn™ system has trouble reading the disc, remove the disc and wipe it carefully, starting from the center of the disc and wiping straight out toward the edge.

# **CONTROLS**

Use the Directional Pad to control your selected player's movement, with or without the ball.

**Note:** Control is perceived from your perspective, not the player on the pitch. For example, if the player is facing towards the left of your screen, by moving the Directional Pad UP he will move to his right (towards the top of your screen). The following directional references relate to a player facing towards the top of your screen (ie. the same as you) and must therefore be modified to suit the current posture of your selected player. This may sound complicated but in practice you will find it is the most natural and easy-to-use control method.

## IN POSSESSION

**Shoot:** A (hold to increase power).

**Pass:** 1. Tap A to pass to your nearest teammate (in the direction you are facing).

2. Tap B twice to play a give and go with your nearest teammate.

3. Tap B and then tap C to receive a chipped return pass from a give and go.

4. Press and hold B to hit a long pass to your furthest teammate (in the direction you are facing), who will receive the ball at chest height (see *Receiving a Long Pass*).

**Chip:** C (hold to increase power).

**Kick:** Tap Y as the player receives the ball in the air

**Back heel:** Left Shift

**Cross\*:** Right Shift

\* To use this special move you must be situated in a suitable crossing position on the wing.

## AFTER TOUCH

From a shot (A) or chip (C) you can apply After Touch using the Directional Pad;

**Ball swerve:** LEFT/RIGHT

**Chip (backspin):** DOWN

**Dip (topspin):** UP

## WINNING THE BALL

**Sprint:** Repeatedly tap A.

**Slide tackle:** B

**Diving header:** C\* (when the ball is between knee and head height).

**Header:** C\* (when the ball is above head height).

---

---

**Bicycle kick:** Y\* (when the ball is above head height).

\* Hold to increase power.

***Note:** You can use the Directional Pad to direct headers and bicycle kicks, subject to simulated natural body movement. If you do not press one of the Directional pad, you will head/kick the ball in the direction you are facing.*

## **RECEIVING A LONG PASS**

When a player has been assigned to receive a long pass, button A assumes a new 'chest control' function;

1. Tap A to trap the ball.
2. Press A (hold to increase power) and move the Directional Pad to play a lay-off.
3. Press A (hold to increase power) without moving the Directional Pad to chest the ball into the air (ie. set yourself up for a header or bicycle kick).

## **SET-PIECES**

**Corner kick/Goal kick/Free kick:** Position the crosshair using the Directional Pad to nominate your target and then all controls remain the same as in open play.

**Penalty kick:** A target ball sweeps across the goal mouth from side to side. When it reaches the point you wish to aim at, press B to strike the ball.

***Note:** Your goalkeeper is computer-controlled except when you receive a back pass and he assumes the control of an outfield player, or when you defend a penalty and you must move the Directional Pad LEFT/RIGHT to dive for the ball.*

**Throw-in:** Position the crosshair and tap B to throw the ball to your teammate's feet, or press and hold B to throw the ball at head height.

## **THE OLYMPIC ENIGMA**

Soccer has always endured an enigmatic relationship with the Olympic Games. According to most fans and pundits, the Olympic soccer tournament lacks the prestige associated with other events.

This has emerged from the conflict between the modern era of professionalism in soccer and the traditional amateur status of the Olympic Games. However, in recent years the move towards universal professionalism has helped reunite the world of sport, and this is reflected in the new eligibility rules introduced for the 1996 Olympic competition.

From 1900 to 1928, the Olympic Games produced the first eight recognized world soccer champions, until FIFA declared that a separate global tournament should determine this honor. Uruguay, the reigning Olympic gold medallists, played host to the inaugural World Cup in 1930, condemning the Olympic competition as the domain of amateur teams.

Profiting from this status, Eastern European nations dominated the post-war period, fielding full-strength sides under the approved notion that none of their state-supported players were professional. Hungary proved the most successful, winning three Gold medals plus a Silver and a Bronze from 1952-1972.

The Eighties saw more revered soccer nations claim honors, as the eligibility rules gradually relaxed to admit young professional players.

At the 1996 tournament in Atlanta, the only competitor restrictions apply to age. With the exception of three team members, each international squad must be comprised of players under the age of 23. Many countries regard this contest as an invaluable opportunity to give their national Under 21 teams competitive experience.

---

---

One notable exception will be Great Britain, who have not entered a team for many years. This stems from fear among the governing bodies of England, Scotland, Wales and Northern Ireland that if a unified side played in the Olympic Games, FIFA would apply similar constraints to the World Cup and other international competitions, where each home nation currently enjoys the luxury of individual teams (and votes).

The Olympic tournament will be contested from July 20th to August 3rd between 16 nations, as determined by regional qualification competitions. A league system of four groups will decide the preliminary rounds, to be played at four venues across the USA: Florida Citrus Bowl; Legion Field in Birmingham, Alabama; Miami's Orange Bowl; and RFK Memorial Stadium in Washington DC.

From each group, the top two teams qualify for the knockout stage: single-elimination matches at Sanford Stadium in Athens, Georgia.
